Step 1: Linking Pegboard

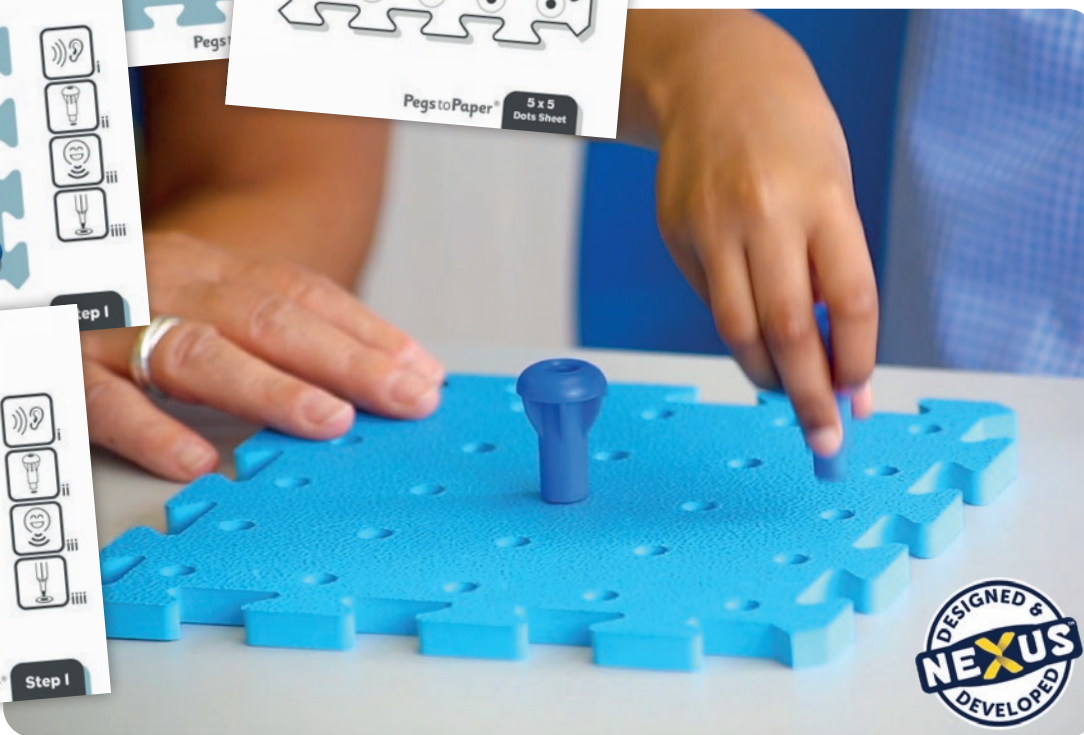

Work Cards
Scan QR Code /
[Click Here](#)

- During these exercises the child is to **(listen)** to the instruction; the child then creates the pattern onto the pegboard using the pegs **(do)**; the child then describes what they have done to develop language **(say)**; then finally they **(draw)** the pattern onto the dots sheet to develop pen control.

1. Step 1 (Without Pots, With Digital Work Cards)

Item Code: 907024QR **Age:** 3+
Contents: 2 linking pegboards, 50 pegs, 1 wallet P2P pens, digital work card sheet.

2. Step 1 (With Pots, With Digital Work Cards)

Item Code: 907025QR **Age:** 3+
Contents: 2 linking pegboards, 50 pegs, 5 pots, 1 wallet P2P pens, digital work card sheet.

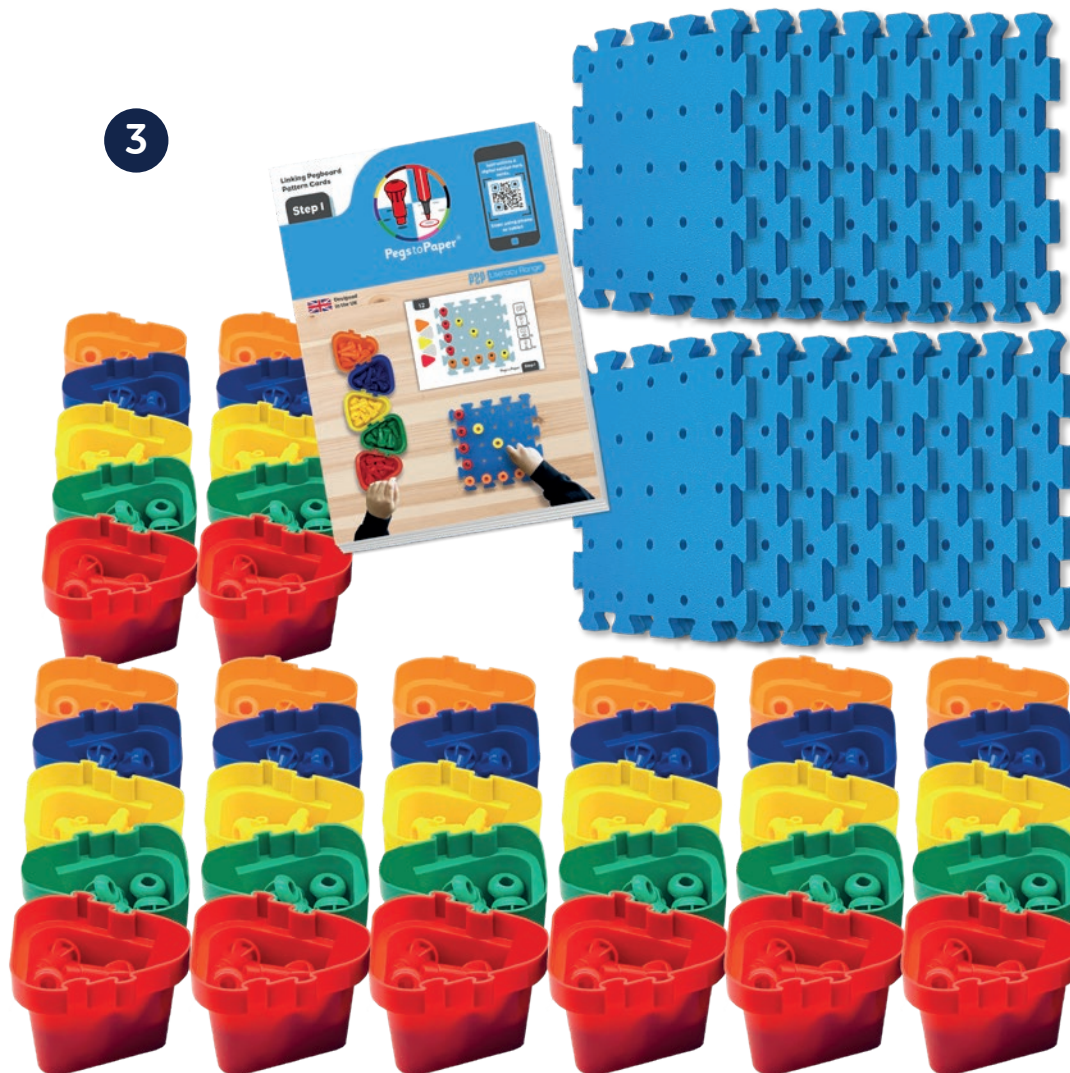

3. Step 1 School Set

Item Code: P2P2001 **Age:** 3+
Contents: 16 linking pegboards, 400 pegs, 40 pots, 1 printed work cards.

**Nexus School
of Thought**

Unlike in steps 2 & 3 which both use 10 x 10 gridded boards, for the first step we begin with a 5 x 5 gridded pegboard. This is to introduce the programme to the child gently, starting off with simpler patterns.

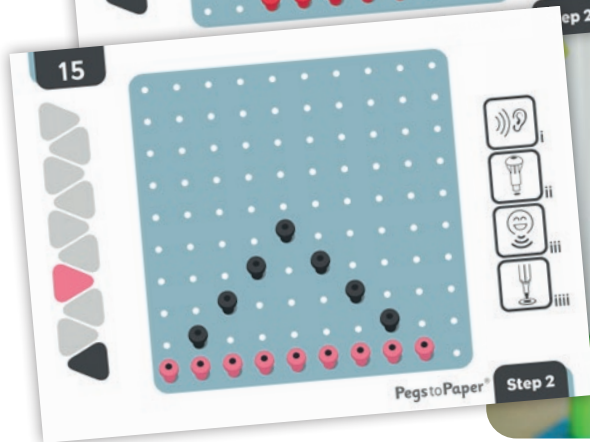

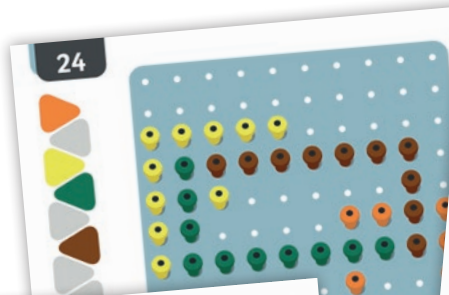

PegstoPaper™

Step 2: Giant Pegboard

Work Cards
Scan QR Code /
[Click Here](#)

- Move onto this stage of the 'Pegs to Paper' programme once the linking pegboard exercises in step 1 have been completed.
- The size of the pegboard in this step increases to a 10 x 10 gridded 400mm x 400mm canvas, with more challenging patterns.
- 5 more colours are also added.

1. Step 2 (Without Pots, With Digital Work Cards)

Item Code: 907044QR **Age:** 3+

Contents: 1 giant pegboard, 100 pegs, 1 wallet P2P pens, digital work card sheet.

2. Step 2 (With Pots, With Digital Work Cards)

Item Code: 907045QR **Age:** 3+
Contents: 1 giant pegboard, 100 pegs, 10 pots, 1 wallet P2P pens, digital work card sheet.

3. Step 2 School Set

Item Code: P2P2002 **Age:** 3+
Contents: 4 giant pegboards, 400 pegs, 40 pots, 1 printed work cards.

Nexus School of Thought

Scaling up to a 10 x 10 grid from the 5 x 5 grid in step 1, the pattern making and language development becomes much more complex and challenges the understanding gained in the previous exercises.

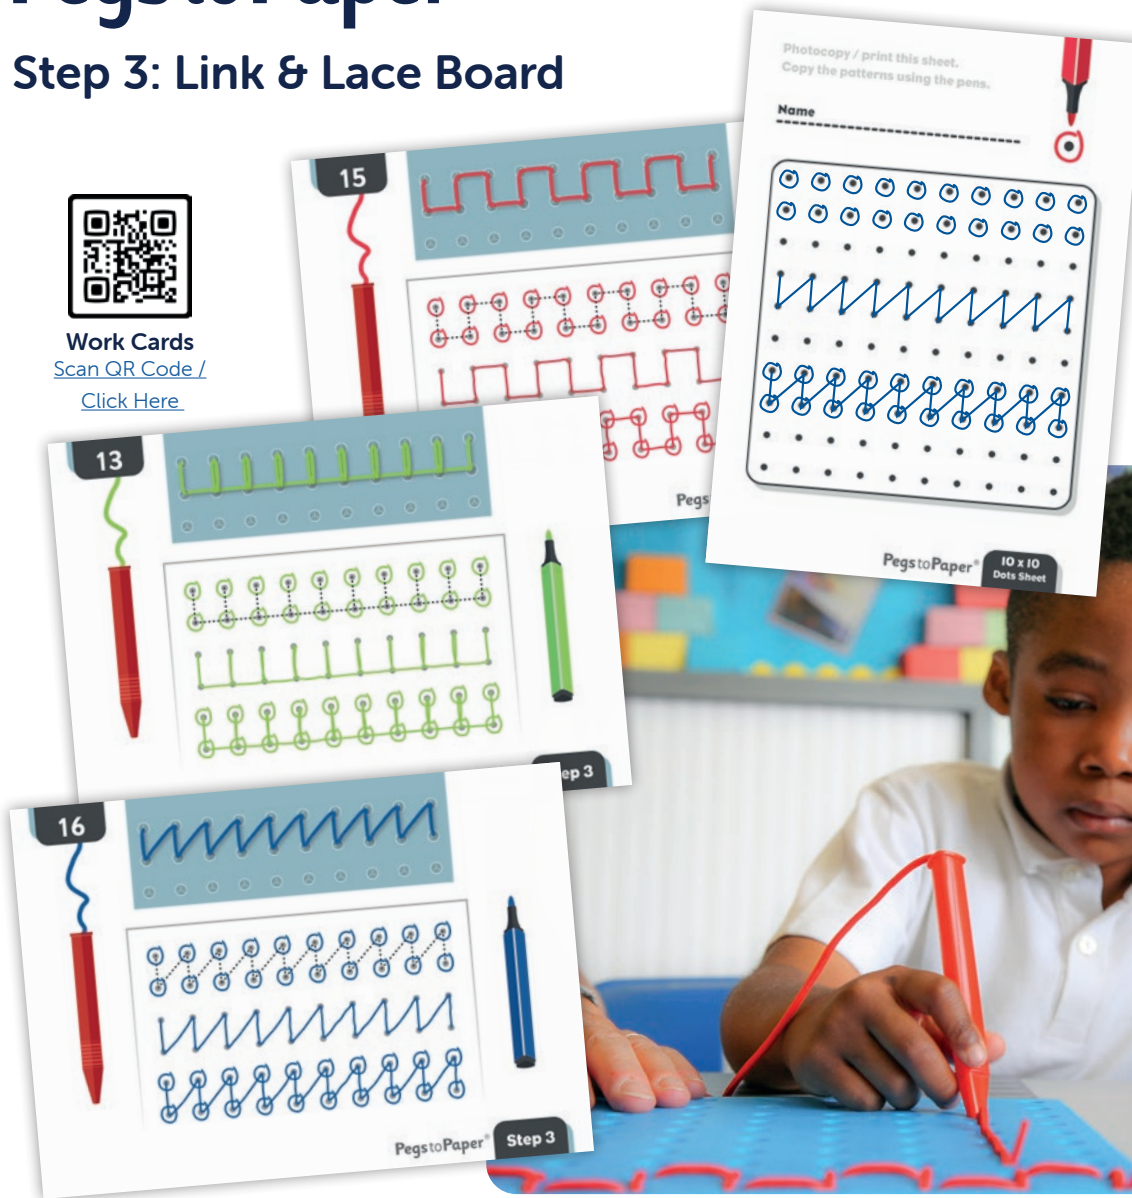

Pegs to Paper™

Step 3: Link & Lace Board

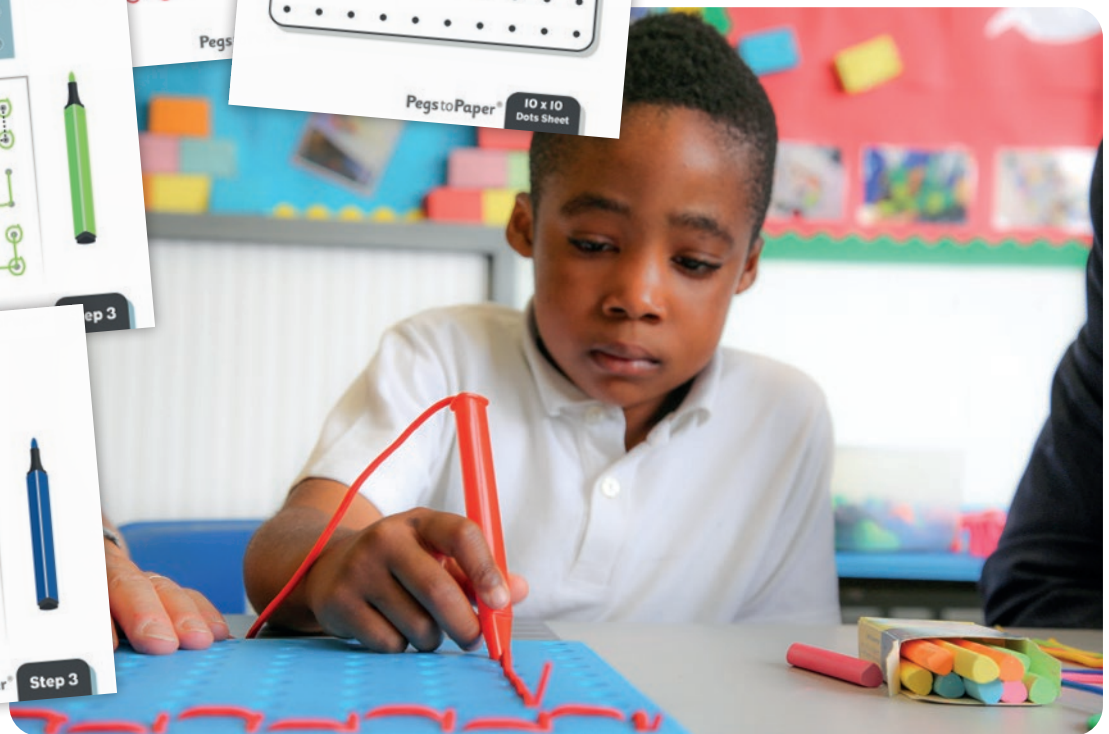

Work Cards
Scan QR Code /
[Click Here](#)

- In step 3 we move from a pegboard onto a lacing board.
- The threads are inserted into the 300mm x 300mm board using the triangular applicators. This develops the muscles in the fingers associated with handwriting.
- The joined pattern making closely resembles cursive handwriting.

1. Step 3 (With Digital Work Cards)

Item Code: 907008QR **Age:** 3+
Contents: 2 link & lace boards, 20 laces, 2 applicators, 1 wallet P2P pens, digital work card sheet.

2. Link & Lace 4 Board Set

Item Code: 907016 **Age:** 3+
Contents: 4 link & lace boards, 40 laces, 4 applicators.

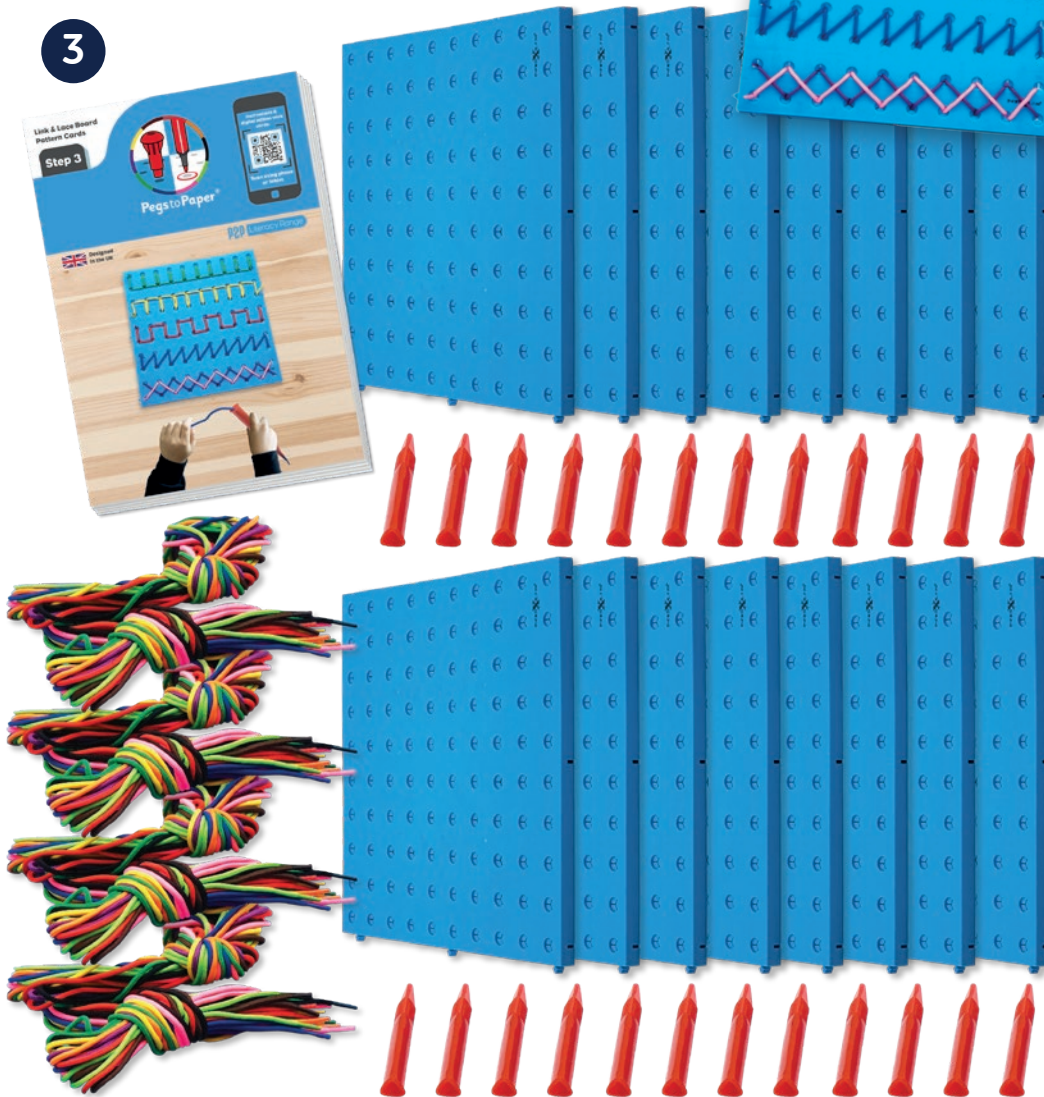

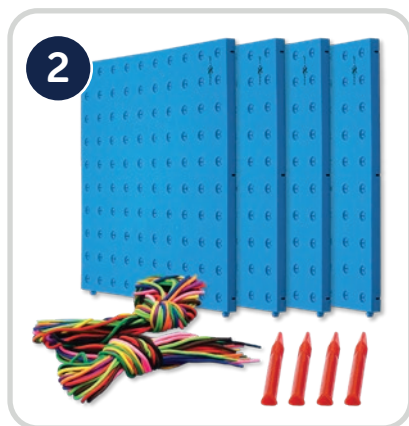

3. Step 3 School Set

Item Code: P2P2003 **Age:** 3+
Contents: 16 link & lace boards, 160 laces, 24 applicators, 1 printed work cards.

**Nexus School
of Thought**

These mark making patterns which are covered in the step 3 work cards help to develop key writing skills.

- The 'Pegs to Paper: Exercises for Handwriting' support material (to be used with the giant pegboard), is specifically designed for pupils who struggle with handwriting.
- Includes a series of exercises which aim to tackle different criteria such as shape, spacing, size & alignment & slant.

Item Code: 907060 **Age:** 3+
Contents: 1 giant pegboard, 100 pegs, 10 pots, 1 wallet P2P pens, 1 set of printed work cards.

Nexus School of Thought

This exercises for handwriting pack is ideal for one-to-one intervention work with ages 5+.

While steps 1,2 & 3 best prepares the early years for all subjects, these cards have a specific focus on improving handwriting.

Combination Sets

Nexus School of Thought

These combination sets include all of the key Pegs to Paper components needed for group work. Set number 1 features only pegs and boards making it ideal for exploratory play, whilst the others are equipped for focus work.

We offer a variety of combination sets for different types of settings. Sets numbered 1-4 are all targeted at nurseries, whilst set 5 is designed for a primary school class. When selecting your set, think about the number of children you are intending to use these resources at any one time.

1. **NEW** Exploratory Set

Item Code: P2P3001 **Age:** 3+
Contents: 16 linking pegboards, 2 giant pegboards, 500 pegs, 50 pots

2. Step 1 & 2 Nursery Set

Item Code: P2P2004 **Age:** 3+
Contents: 8 linking pegboards, 2 giant pegboards, 400 pegs, 40 pots, 2 wallets P2P pens, step 1 & step 2 cards

3. Step 1,2 & 3 Nursery Set (A)

Item Code: P2P2006 **Age:** 3+
Contents: 4 linking boards, 1 giant pegboard, 200 pegs, 20 pots, 2 wallets P2P pens, 4 link & lace, step 1 2 & 3 cards

4. Step 1,2 & 3 Nursery Set (B)

Item Code: P2P2007 **Age:** 3+
Contents: 8 linking boards, 2 giant pegboards, 400 pegs, 40 pots, 2 wallets P2P pens, 8 link & lace, step 1 2 & 3 cards

5. Step 1,2 & 3 School Set

Item Code: P2P0123 **Age:** 3+
Contents: 16 linking boards, 4 giant boards, 800 pegs, 80 pots, 16 link & lace, step 1 2 & 3 cards x 4, exercises for handwriting work cards x 1, 10 x 10 wallets P2P pens

We advise that you add a box of Pegs to Paper pens to your order. You will tend to require more than the number included in each of these sets.

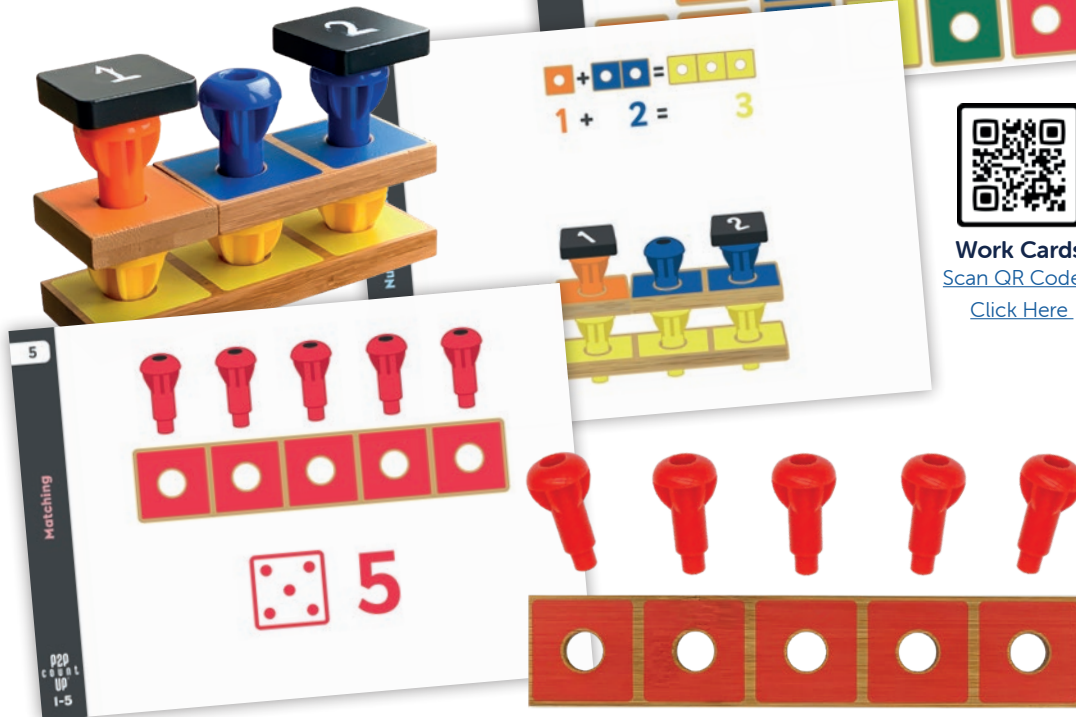

Pegs to Count Up™

Exploring Numbers 1-5

**Nexus School
of Thought**

By introducing coloured rods that each represent a different number to the pegs, we can make 'Pegs to Paper' a much more dynamic resource for teaching early maths. Includes write on/wipe off tiles and a series of work cards.

Pegs to Count Up: Exploring Numbers 1-5

- The most recent Education Endowment Foundation reports on improving mathematics had the use of manipulatives and the mathematical modelling as a key recommendation as a driver for improving standards at EYFS, KS1, KS2 and into KS3.
- Pegs to Count Up is one of the manipulatives that you could use, it will compliment other resources you have in school such as Cuisenaire rods, place value counters etc.

Pegs to Count Up™

Exploring Numbers 1-10

Nexus School of Thought

Moving up to numbers to 10, the 1-10 set includes a bamboo 100 square write on/wipe off frame complete with an array of pieces which takes the maths to a more dynamic level. The large size encourages children to get hands on and learn maths through play.

Pegs to Construction™

Pegs to Construction

- Set of 44 beechwood and 6-layer plywood tools designed to be used with the Pegs to Count Up rods & tiles.
- Screw and bolt together the rods using the tools to create an infinite range of models.

Item Code: P2P5010 **Age:** 3+
Contents: 1 box, 44 pieces, 10 x A5 activity cards. 1-5 rods & tiles.

Nexus School of Thought

This tool kit will transform your Pegs to Count Up set into a construction game.

The motion of screwing and bolting the pieces together using the screwdriver and spanner is fantastic for motor development.

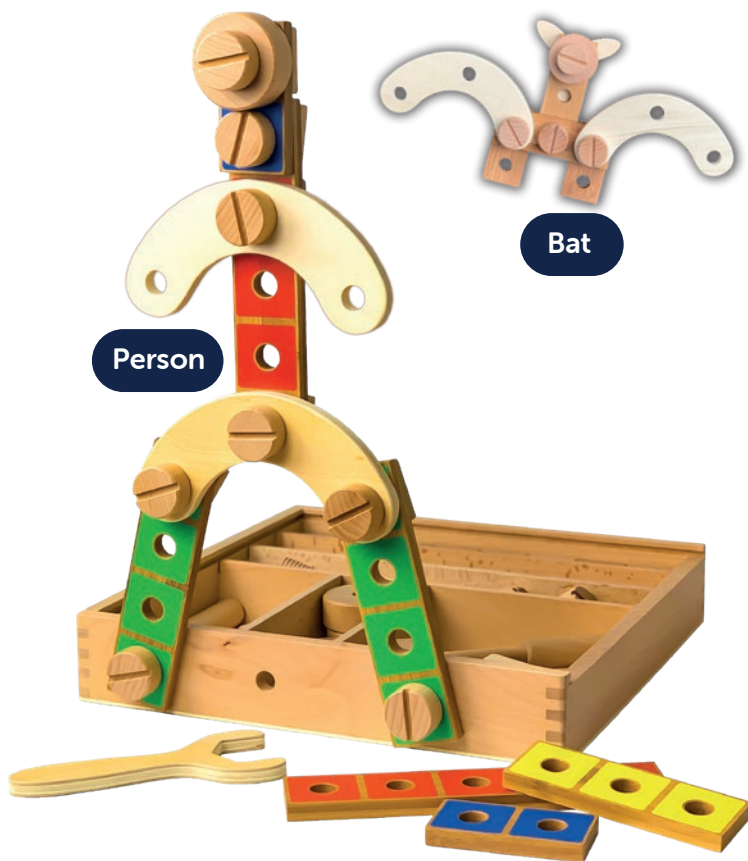

A great introduction to using tools for little ones.

Pegs to Range

1. Nexus White Playboards

- Teaches children how to thread a lace.
- Develop hand-eye coordination and create pictures by simply pushing the lace into the holes using the applicator.
- Co-operative play making pictures and designs with other children.
- The child can copy more complex patterns created by other children or the teacher.
- Each board measures 195mm x 280mm and can be connected onto other boards to increase the canvas size.

Item Code: 907001 **Age:** 3+
Contents: 4 boards, 4 pens, 20 laces.

Item Code: 907002 **Age:** 3+
Contents: 12 boards, 12 pens, 60 laces.

2. Nexus Black Playboards

- Black version of the white playboards.
- Comes with vibrant fluorescent laces which stand out well onto the black surface.

Item Code: 907006 **Age:** 3+
Contents: 4 boards, 4 pens, 20 laces.

Item Code: 907009 **Age:** 3+
Contents: 12 boards, 12 pens, 60 laces.

3. Link & Lace Boards

- 100 square threading board with larger gaps between each hole than the playboards.
- Boards can be joined together to create a larger threading canvas, also compatible with playboards.
- Each board measures 300mm x 300mm.

Item Code: 907016 **Age:** 3+

Contents: 4 boards, 4 applicators, 40 laces.

4. Playboard Threads

Item Code: 907005 **Age:** 3+

Contents: 16 x 1m, 4 x 1.5m threads in assorted colours.

5. Playboard Threads (fluorescent)

Item Code: 907007 **Age:** 3+

Contents: 16 x 1m, 4 x 1.5m threads in fluorescent colours.

6. Playboard Pens

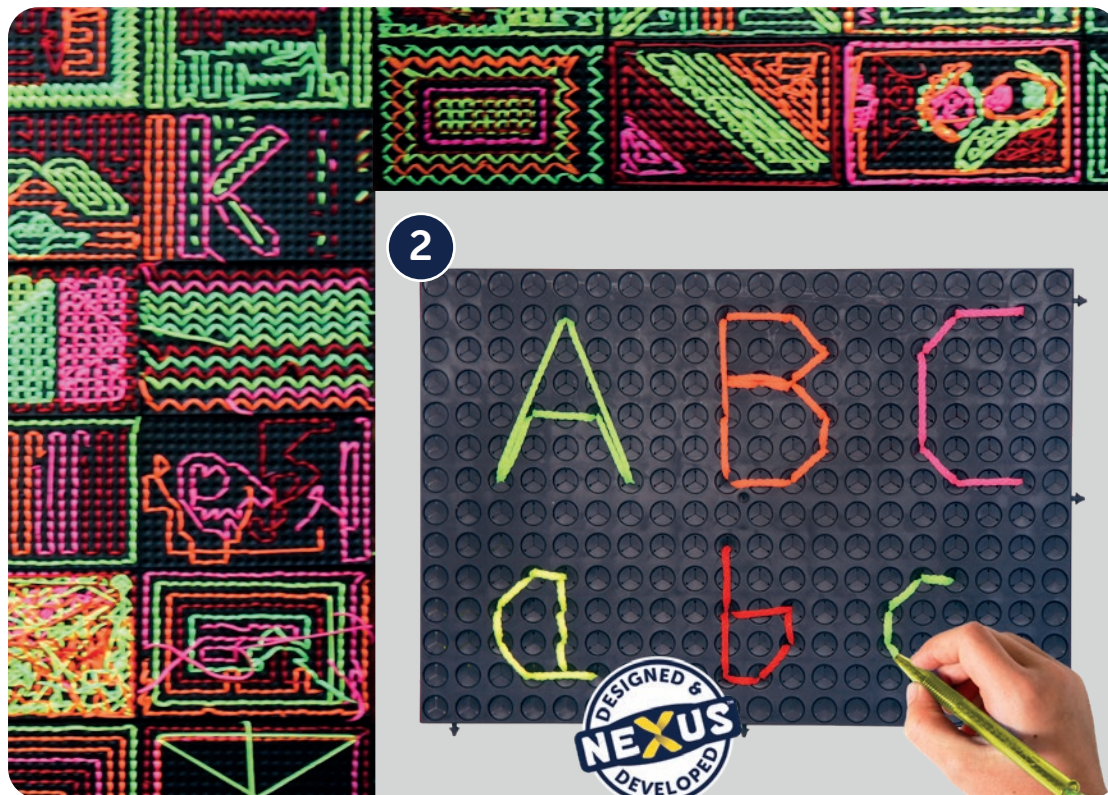

Item Code: 907004-12 **Age:** 3+

Contents: 12 x threading pens.

Nexus School of Thought

These threading boards are ideal for developing the finger strength required for handwriting.

1. Nexus MagnePad

- Children can develop motor skills and pen control whilst having fun creating pictures.
- Using the magnetic applicator pen, lift up the metal balls within the pad to create an image onto the surface. The metal balls can then be pushed back down into the side of the magnetic applicator to refresh the canvas.
- The hexagonal applicator supplied with the board includes a nickel coated, sprung loaded, strong neodymium magnet
- Images can be generated from either the imagination or can be copied from one of the 20 x work cards included with each MagnePad.
- The Nexus MagnePad is great for those who are visually impaired as it provides sensory feedback for sound and touch. Braille can also be written onto the board which helps with communication.
- The metal balls are safely housed with the grid of the pad, ensuring the balls do not fall out.
- Each board measures 315mm x 255mm.

Item Code: 863000 **Age:** 3+
Contents: 1 magnetic board,
 1 magnetic hexagonal applicator pen,
 20 example work cards.

Nexus School of Thought

These magnetic boards are fantastic for developing fine motor skills and pen control. They are also particularly good for SEN children because it is a calming and engaging activity with plenty of sensory feedback - from the noise the balls make on the surface to the touch of pushing them back down into the pad.

The larger MagnePad allows for more elaborate designs and comes with work cards, whilst the smaller MagnePad is ideal for carrying due to its portability.

2. Magnetic Triangular Applicators

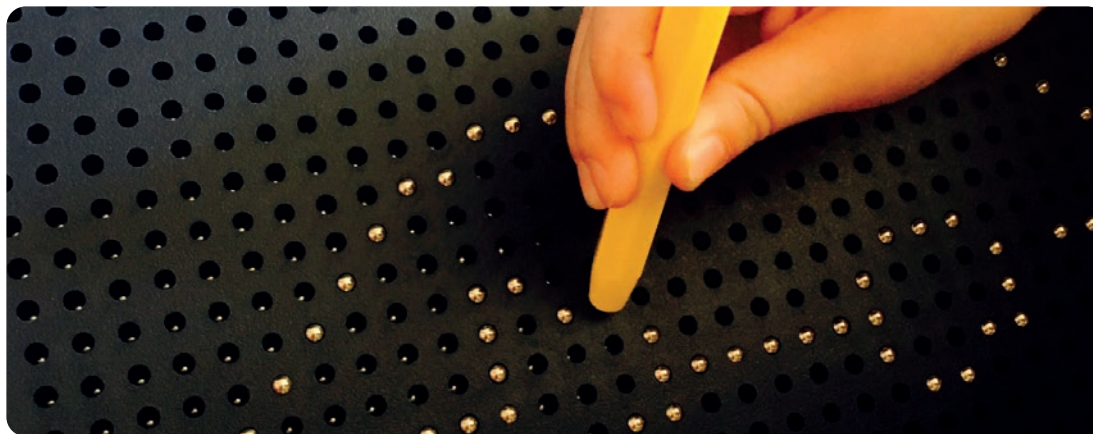

- As well as the standard hexagonal applicator which is supplied free with every MagnePad and MagnePad Tablet, these triangular versions are also available in packs of 10.
- The triangular shape is great for developing an ergonomic tripod pen grip.

Item Code: 863501-10 **Age:** 3+
Contents: 10 triangular magnetic applicators

3. Nexus MagnePad Tablet

- These boards are much the same as the larger MagnePad, but are sized at the smaller scale of 210mm x 170mm.

Item Code: 863025 **Age:** 3+
Contents: 1 magnetic board,
1 magnetic hexagonal applicator pen.

1. Nexus MagnaTiles

- 100 translucent colourful shapes including 40 squares and 60 triangles.
- Develops key STEM and fine motor skills.
- Great for creating buildings and geometric shapes.
- A good tool for showing the net of a cube.
- Can be used effectively for both 2 dimensional and 3 dimensional models and creations.

Item Code: 863100 **Age:** 3+
Contents: 100 magnetic shapes including 40 squares & 60 triangles.

2. Nexus MagnaSticks

- Build & play with these magnetic grippy rods & eyes, steel spheres & hemispheres.
- Develops key STEM and fine motor skills.
- Great for creating humanoid and animal-like models.
- This 52-piece set comes in a storage tub with a handle, making it an ideal magnetic set to transport throughout the setting.
- The design of the storage tub also makes this set very appropriate for pack away settings.

Item Code: 863052 **Age:** 3+
Contents: 52 magnetic pieces in a handled storage tub

Nexus School of Thought

Nexus MagneTiles & MagneSticks work effectively with the Nexus Dual Board.

1. Nexus Light & Sound

- The 81-piece set contains a variety of colourful smooth component blocks which come as 4 distinct subsets but can be interchanged to extend the play value.
- Several of the blocks have simple connectors to allow for more adventurous construction, and each vehicle has a connector option to fix the driver on the front.
- The vehicles all make a range of relevant sounds, including alarm beeps, engine sounds, horn, sirens and a friendly bus tune. Each vehicle also displays a range of flashing lights in white, blue, green, red and pink.

Nexus School of Thought

The Nexus Light & Sound set is ideal for teaching children about the key public and emergency services. This helps to build an understanding about our society and culture in general.

Nexus School of Thought

Use this set to tell enchanting stories to the children, then get them to present their own stories.

Developing language is easy with the Nexus Wooden Story Teller. Ask the child to describe each character as you introduce them into the scene.

Quiz the child as to where one piece is in relation to another, for example: 'the lighthouse is behind the parrot' or 'the cow is in front of the barn'.

1. XXL Blocks

- This set contains 100 Russian beech plywood blocks housed in a beautifully crafted wooden box.
- Each block measures 225mm x 15mm.
- Build from imagination or copy from the 20 example activity cards included in the set.
- Ideal for motor development and encouraging creative thinking.

Item Code: 924010 **Age:** 3+**Contents:** 100 wooden blocks in wooden storage box, including 20 activity cards.

Nexus School of Thought

With XXL Blocks, children discover that they can bring their ideas to life by creating, transforming, demolishing and re-creating something unique.

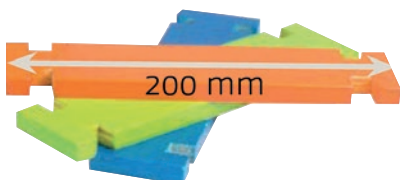

Rather than installing a dolls house into your setting, perhaps challenge the children to build one with XXL Blocks?

2. Mimido

- Mimido is an innovative construction material that contains many different shapes and forms which children can build, explore and construct in a lot of different ways.
- Due to the individual parts and proportions of the wooden elements, a lot of different objects, landscapes & buildings can be created.

Item Code: 924020 **Age:** 3+
Contents: 80 wooden blocks in wooden storage box, including activity booklet.

**Nexus School
of Thought**

There are multiple ways in which the marble run structures can be built. This encourages early engineering skills and three dimensional thinking whilst also building creative capacity. The larger 89-piece set allows for more daring creations.

2. Nexus Hammer & Tack Sets

- Children can piece together their own pictures whilst learning how to use a hammer with these two different hammer & tack sets.
- Two themes available - farm theme and a tractor vehicle theme.
- Great for imaginative play and building creativity.

Item Code: 516060 **Age:** 3+
Contents (Farm Set): Assorted pieces, set of pins, 1 hammer, 1 cork board

Item Code: 503360 **Age:** 3+
Contents (Vehicle Set): Assorted pieces, set of pins, 1 hammer, 1 cork board

Nexus School of Thought

In response to the growing trend for settings wanting more realistic tools, we have included these sets into our range.

Tacking the pins into place with the hammer gives children the correct sensory feedback for skill building in this area of construction and creativity.

NexPlay Wooden Sets

- Each set is delivered flat packed for the ultimate STEM challenge of building your own model.
- Sets can be played with independently or together to make it even more fun.
- Once play time is over, the models look great on the shelf ready for the next play session.

Nexus School of Thought

Construct the wooden models using the unique connection system. You can either make the models for the child or challenge them to build it themselves.

Nexus School of Thought

The tiles are printed with a wide variety of different objects and animals on them which help to broaden the child's vocabulary and classification skills.

A very fun game for small groups.

1

1. Super Memo 2.0

- There are 4 variations of the game included in the instructions, all of them employing the skills of speed, observance and use of language.
- The main object of the game is to win the most tiles by spotting the corresponding images from the tiles onto the board before the other players can.
- The games can be played with 1-6 players.

Item Code: 870002 **Age:** 3+

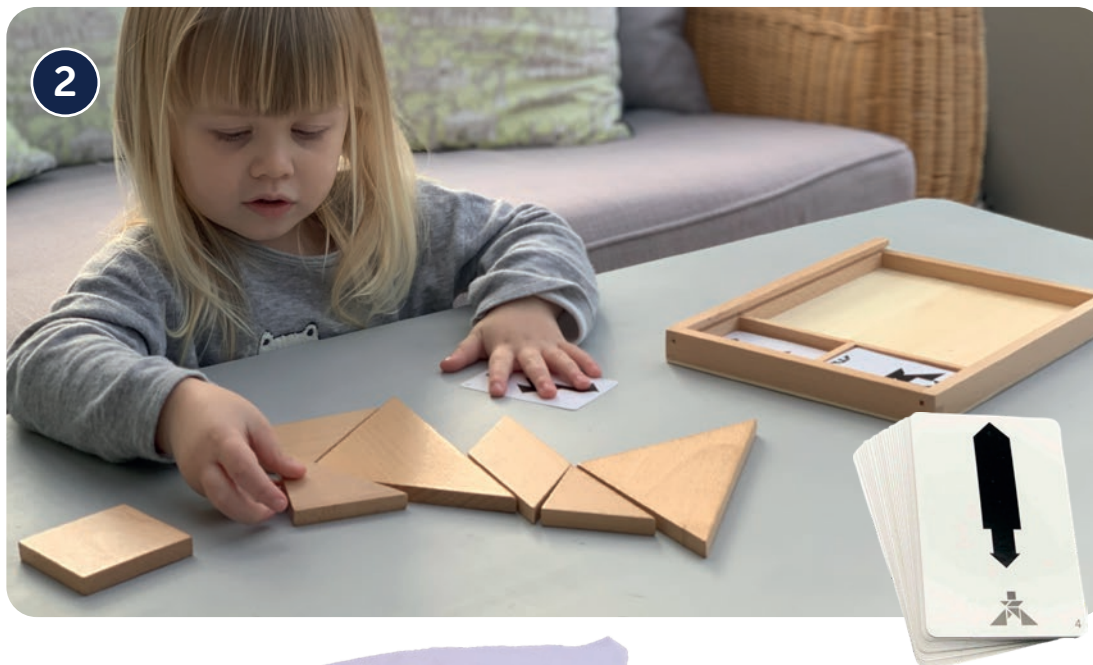

Contents:

256 wooden tiles, 4 wooden puzzle plates, wooden storage box, instruction sheet.

2. Nexus Wooden Tangram

- Based on a traditional Chinese puzzle.
- The square puzzle is made out of seven different shapes (one parallelogram, one square and five triangles).
- The object of the puzzle is to recreate the silhouettes of people, birds, animals and objects pictured on the 27 cards. The puzzle is a perfect introduction to geometry, shape recognition, problem solving and encourages the development of hand-eye coordination.

Item Code: 563010 **Age:** 3+
Contents: 265mm x 200mm x 20mm box with perspex lid, 27 work cards, 7 wooden pieces.

2. Nexus Wooden Angle Stackers

- The aim of this game is to make the tallest tower possible without the knocking over the pieces.
- Great for teaching children about balance.
- The sawn wooden edges enable the pieces to stack effectively.
- The natural wooden pieces come with a drawstring bag for storage.
- Great for painting to personalise.

Item Code: 9380901 **Age:** 3+
Contents: 1 set = 4 bags x 25 pieces each (100 pieces in total).

1. Nexus Counting Beads

- Nexus counting beads enable children to look and study six themed boards with real life scenes. They then identify items by finding and counting the number of each subject shown on the boards. They are then able to demonstrate their understanding by adding the correct amount of beads to the stand.

Item Code: 120500 **Age:** 3+
Contents (standard set): 6 durable theme boards, 6 assignment cards, 50 beads, 6 wooden pegs, 1 wooden stand & box.

- Each stepping stone measures 280mm x 200mm x 140mm.

Item Code: 940200 **Age:** 3+

Contents: 4 LED stepping stones, 4 power charging leads, 4 remote controls.

Nexus School of Thought

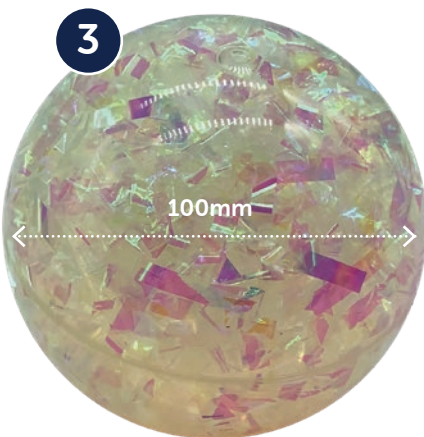

Both the light box and the stepping stones are chargeable and have a battery life of 12 hours per session. The light box has a recession in the surface which is great for loose parts play or for adding a layer of water or sand.

3. Nexus Confetti Balls

- Confetti balls are calming and mesmerising.
- Children get a multi-sensory experience when playing with the confetti balls. When in motion, the mixture inside the ball moves independently and glistens in the light. The touch of the ball is weighty and squidgy in the hand. The balls can also be bounced on the floor.

Item Code: 955069 **Age:** 3+
Contents: Set of 6 confetti balls

Nexus School of Thought

The touch sensitive setting on both the light box and the stepping stones are fascinating for young children. They will love making the stones light up when stepping from one to the other. The smooth gradient light settings are great for calming children.

Nexus School of Thought

Our triangular pencils encourage the child to pinch the pencil with thumb and first finger, with the middle finger behind (making a dynamic tripod) with an open and stable thumb web space. The chunkier handwriter is designed to withstand any heavy-handed use by the infants. Pupils should then move onto the premium non-slip Natural Writer.

1. Nexus Triangular HB Handwriter

- Designed as a beginner handwriting pencil.
- The specially developed triangular shape has slightly rounded edges to help when sharpening in a standard twin hole sharpener.
- The lead diameter has been reduced to give optimum width when writing but still strong enough to withstand the rigours of the classroom.

Item Code: 103049 **Age:** 3+
Contents: 1 box of 144 pencils.

2. Nexus Triangular HB Natural Writer

- Our premium handwriting pencil.
- Designed to be used once the basics of handwriting have been mastered with the larger HB handwriter.
- Non slip quality wooden slats with 7.2 mm diameter leads.

Item Code: 103800 **Age:** 3+
Contents: 1 box of 72 pencils.

“ The McLeod Centre for Learning uses Nexus Triangular Pencils.”
Amanda McLeod, The McLeod Learning Partnership

3. Nexus Hexagonal HB Basswood Pencil

- Designed for everyday use.
- Ideal value hexagonal pencil for students who have already established a quality handwriting grip and do not require a tri-grip.
- Like the triangular handwriters, these pencils are made using high quality wood slats with centralised leads for easy sharpening.
- The HB leads contain an excellent mixture of graphite and clay giving a smooth delivery onto the page.

Item Code: 103400 **Age:** 3+
Contents: 1 box of 144 pencils.

4. Nexus Triangular Mechanical Trainers

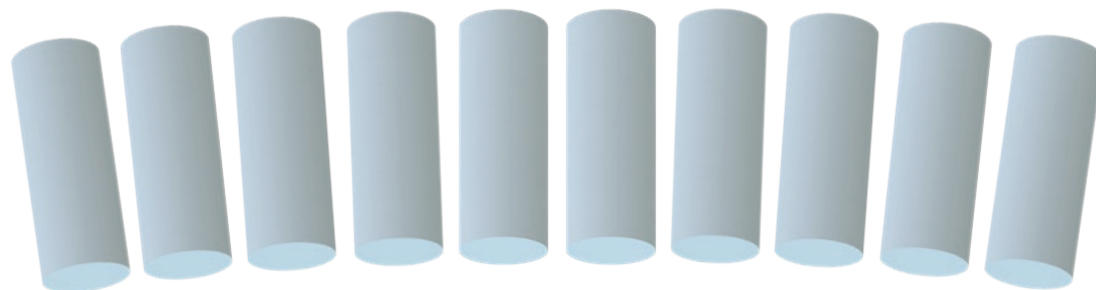

- These mechanical pencils are a great tool for encouraging children who push too hard when writing to reduce the pressure they exert onto the page.
- The leads will continue to break until the child learns to adjust to the correct pressure.
- Start with size 0.7 (purple), then move onto the finer 0.5 (green).

0.7mm Pencils (Purple): 103703
Age: 3+ **Contents:** 1 box of 100 pencils.

0.5mm Pencils (Green): 103700
Age: 3+ **Contents:** 1 box of 100 pencils.

0.5mm Pencil Leads: 103700
Age: 3+ **Contents:** 1 box of 120 leads

Nexus School of Thought

The chunky sized 'Nexus Tripod Grip Erasers' are great for building children's motor skills whilst also functioning as an eraser. The colour scheme is the same as the 'P2P' colours, making this a perfect addition to the range. The new latex free erasers are the ideal essential eraser for the classroom.

1. Nexus Tripod Grip Erasers & Refills

- Triangular grip eraser for developing motor skills whilst erasing.
- Helps create correct pencil grip.
- Strengthens hands and arms.

Nexus School of Thought

Our 'Triangular Handwriters' come in two different sizes. The smaller 118mm is designed for the youngest children first learning to write, providing a more natural size for smaller hands. Once the children have outgrown the smaller size, they can progress onto the 166mm.

We recommend the Nexus ECO Writer for children who are struggling with pen control and require extra support. This model is very comfortable to grip and writes beautifully. Refill cartridges are available in packs of x 30 and come in both blue or black ink.

“We have designed these two different sized triangular handwriters in partnership with the National Handwriting Association.”

Simon Jones, Nexus Managing Director

Nexus School of Thought

The three double-sided A4 boards in our range have each been designed for a specific purpose.

Writing with chalk helps to develop handwriting due to the resistance on a chalkboard, so we designed the A4 Writing Board to work with our triangular chalks whilst also functioning as a traditional whiteboard for our whiteboard pens on the reverse. The A4 Grid Writing Board has been recently developed to provide a similar option but with a gridded whiteboard side which helps to tighten up writing even more with the additional lines. Lastly, the A4 Buff Writing Board also includes a series of printed lines to practice handwriting. The anti-glare buff shade has been designed to help pupils who may struggle with white backdrops such as dyslexic and dyspraxic children. This board is also magnetic which also provides play value.

1. Nexus A4 Writing Board

- Whiteboard one side, lined black-board on the other for chalks.

Item Code: 203600 **Age:** 3+

ECO FRIENDLY REFILL SYSTEM

**ZERO
LANDFILL**

Keep hold of your used glue stick

When all of the glue in your 40g stick has been used up, do not throw away, instead, keep hold of the empty barrel.

Refill glue stick with U-Fill

Get hold of some U-Fill refill cannisters, each containing a new stick of glue for your old glue sticks. The new stick can be easily decanted into the old glue stick barrel. Again, do not throw these empty cannisters away.

We collect and recycle

For those that do not wish to re-purpose the empty U-Fill cannisters, we offer a free collection service. The empties are then sent back to the factory to be filled once again with a new glue stick refill. We will even pay you a small reward! (check Ts & Cs).

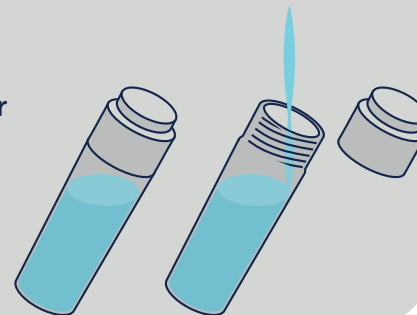

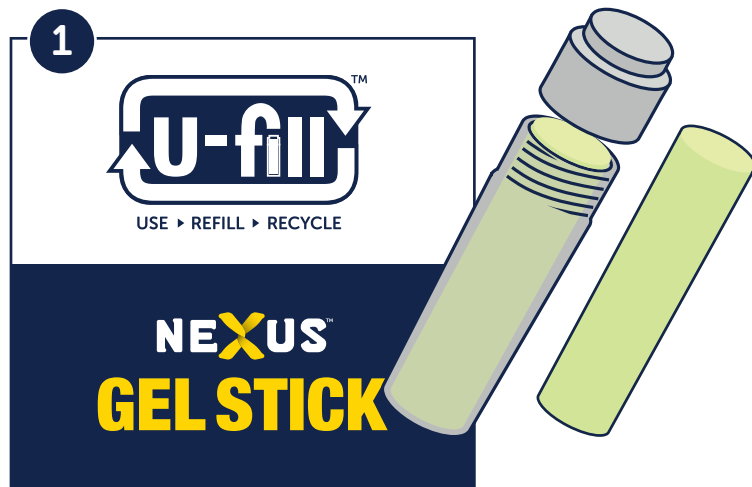

USE ► REFILL ► RECYCLE

Upcycling your empty U-Fill cannister

Once your old glue stick has been refilled, the multi-functional empty U-Fill cannister can now be used for numerous purposes such as storage for paints and liquids, to hold objects, or for building towers to name just a few.

1. **NEW** U-Fill Gel Stick

- 100 x screw cap containers each loaded with a glue stick refill.
- Acrylic glue compatible with the Nexus Gel Stick.
- Upcycle or recycle U-Fill cannister.

Item Code: TBC **Age:** 3+

2. **NEW** U-Fill Power Stick

- 100 x screw cap containers each loaded with a glue stick refill.
- White stick glue compatible with the Nexus Power Stick.
- Upcycle or recycle U-Fill cannister.

Item Code: TBC **Age:** 3+

Contents: 100 x U-Fill glue stick refill cannisters (Power Stick).

3. Nexus Purple Stick

- Applies purple, dries clear.
- Ideal for young children to see exactly where they have applied the glue.

Item Code: 804070

Age: 3+

Contents: 1 x box of 12 glue sticks.

1. Nexus Gel Stick (Acrylic)

- One application, single stroke acrylic glue stick.
- Containing 45% adhesive.
- Can be repositioned for up to 60 seconds after which will be permanent.
- Great for teacher displays and heavier items.

Item Code: 804045-12 **Age:** 3+
Contents: 1 box of 12 x 40g Gel Sticks

Nexus School of Thought

Acrylic sticks give you an extra strong bond.

The application is incredibly smooth and forgiving as you can re-position the glued item for up to one minute.

Due to low water content, acrylic sticks do not pucker tissue or cartridge paper.

Nexus School of Thought

Styled on a pen, this pocket sized acrylic stick is perfect for all crafting projects that require a precision adhesive.

Great for including in small pencil cases and pockets where a traditional glue stick could not fit as comfortably.

2. Nexus Write Fix (Acrylic)

- Acrylic glue which has the same formula make-up as the Nexus Gel Stick but in pocket sized 15g barrel for portability and precision.
- Remove the cap and twist the end of the pen to wind out the glue.
- Each pack contains 30 pens.
- Very strong bond.

Item Code: 804030 **Age:** 3+
Contents: 1 box of 30 x 15g pen glue sticks

3. Nexus Power Stick (White)

- Smooth application, sticks heavier items for displays.
- Contains up to twice as much adhesive as regular white glue sticks.
- Can be repositioned for up to 30 seconds after applying and is permanent once dry.

Item Code: 804080-12 **Age:** 3+
Contents: 1 box of 12 x 40g Power Sticks

Nexus School of Thought

The Nexus Power Stick - we guarantee that you will not find a better white glue stick on the market!

Whilst the acrylic Gel Stick is the premium glue, this white stick comes in at a very close second on the quality spectrum of Nexus glue.

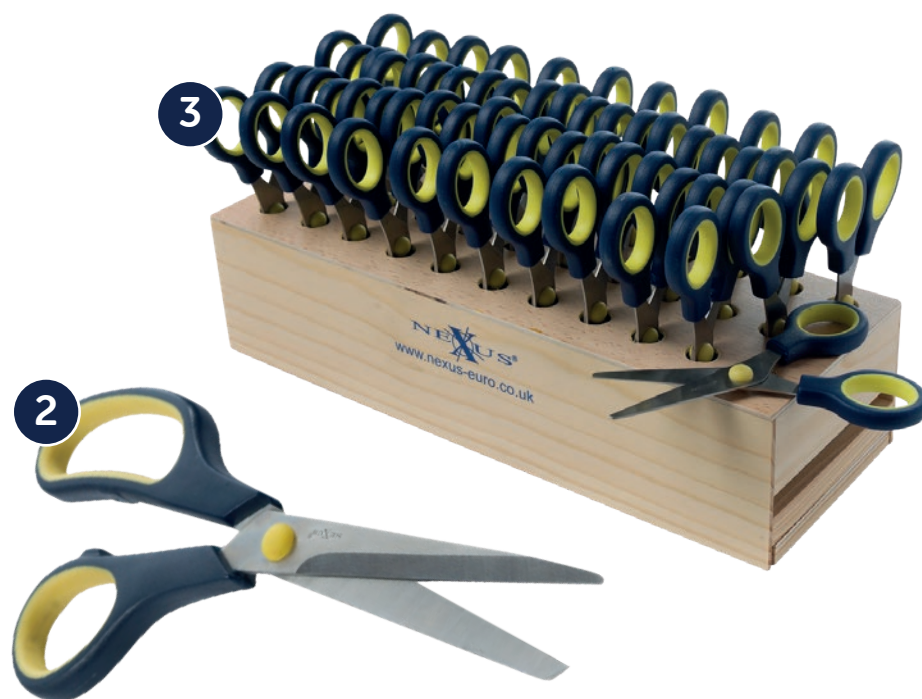

4. Nexus New Tack

- Tack for fixing notices, posters and photographs to walls, temporary fixing of items to desks and shelves, and a multitude of other surfaces.
- Magnolia colour.

Children can use the Abacus beads for basic maths operations, as well as measuring distances and also the height, length and diameter of objects. We have 4 types of Abacus bead sets. The Children's 10/20 Abacus bead string and Children's 100 bead string class sets are conveniently packed in 30s to suit the average classroom size, whilst the teacher Abacus bead string set is ideal for teachers to demonstrate with.

The latest addition to the range is our upcoming cubed abacus beads which will provide an innovative new way to teach area.

Abacus Beads

The Abacus was in use for centuries before the adoption of the written modern numeral system. Around the world, they have been used in education as an aid in teaching maths and arithmetic. Children love to measure things and to explore the perspective of different objects.
